ARE YOUR KIDNEYS

How They Fight Uric Acid

If you eat meat, then you have urlo acid in your blood. And urle acid is the chief cause of weak kidneys. The kidneys do their utmost to free the blood of irritating urle acid, but it is a losing fight for them. They become weak from the overwork. They get sluggish; the eliminative tissues clog and thus the work of filtering the blood is performed very poorly and the waste is retained to poison the entire system. the entire system.

When your kidneys throb with a dul ache, when they feel like lumps of lead when you have severs headaches, nervous and dizzy spells, sleeplessness, tired feeling, constipation and bladder disorders

Murray's Boston Store troubles come from weak, sluggish kidneys.
You can help the weakened kidneys and put them in good working order again by asking your druggist for about five counces of Rheumasalts. Take two teaspoonfuls in a glass of water before breakfast for a few mornings and the results will surprise you.

Rheumasalts acts quickly without griping or nausea. It is delicious to take. It is a uric acid solvent as well as a salline laxative—delightfully effervescent.

These famous salts are very inexpensive. Every one can profitably take a little Rheumasalts occasionally to keep the kidneys clean, working and efficient.

Rheumasalts is prepared by the famous
